Practical – 3

1. Cascading Style Sheets (CSS): Apply Style Sheet on registeryourself.html or create a new html page from scratch.

PROGRAM :

```html
<html>
<head>
        <meta name="viewport" content="width=device-width , initial-scale=1.0">
        <title>Registeryourself</title>
        <style>
                body {
                        font-family: Arial, Helvetica, sans-serif;
                        background-color: white;
                }
                .container {
                        padding: 16px;
                        background-color: white;
                }
                input[type=text], input[type=password] {
                        width: 100%;
                        padding: 15px;
                        margin: 5px 0 22px 0;
                        display: inline-block;
                        border: none;
                        background: #f1f1f1;
                }
                input[type=text]:focus, input[type=password]:focus, input[type=radio]:focus {
                        background-color: #ddd;
                        outline: none;
```

```css
            }
            hr {
                    border: 1px solid #f1f1f1;
                    margin-bottom: 25px;
            }
            .registerbtn {
                    background-color: darkblue;
                    color: white;
                    padding: 16px 20px;
                    margin: 8px 0;
                    border: none;
                    cursor: pointer;
                    width: 100%;
                    opacity: 0.9;
            }
            .registerbtn:hover {
                    opacity: 1;
            }
            a {
                    color: dodgerblue;
            }
            .signin {
                    background-color: lightgrey;
            text-align: center;
}
</style>
<body>
      <fieldset>
            <legend align="center">SIGNUP</legend><br>
                  <table align="center" cellpadding="5" cellspacing="5" >
```

```
                    <tr>

                            <td>Name:</td>

                            <td><input type="text" placeholder="Write Your Name"></td>

                    </tr>

                    <tr>

                            <td>Email Id:</td>

                            <td><input type="text" placeholder="Enter Email"></td>

                    </tr>

                    <tr>

                            <td>Gender:</td>

                            <td><select>

                                    <option value="Male">Male</option>

                                    <option value="Female">Female</option>

                            </select></td>

                    </tr>

                    <tr>

                            <td>Phone No:</td>

                            <td><input type="text" placeholder="Phone Number"></td>

                    </tr>

                    <tr>

                            <td>Field of interest:<br></td>

                            <td>

                                    <input type="radio" name="foi1"
value="Develop">Developer

                                    <input type="radio" name="foi2"
value="Design">Designing

                                    <input type="radio" name="foi3"
value="Market">Marketing<br>

                            </td>

                    </tr>

                    <tr>
```

```html
                                <td>Password:</td>

                                <td><input type="password" placeholder="Enter
Password"></td>

                        </tr>

                        <tr>

                                <td colspan="2"><p>By creating an account you agree to our
<a href="#">Terms & Privacy</a>.</p></td>

                        </tr>

                        <tr>

                                <td colspan="2"> <button type="submit"
class="registerbtn">Register</button></td>

                        </tr>

                        <tr>

                                <td colspan="2">

                                <div class="container signin">

                                        <p>Already have an account? <a href="#">Sign
in</a>.</p>

                                </div>

                                </td>

                        </tr>

                </table>

        </fieldset>

</body>

</head>
```
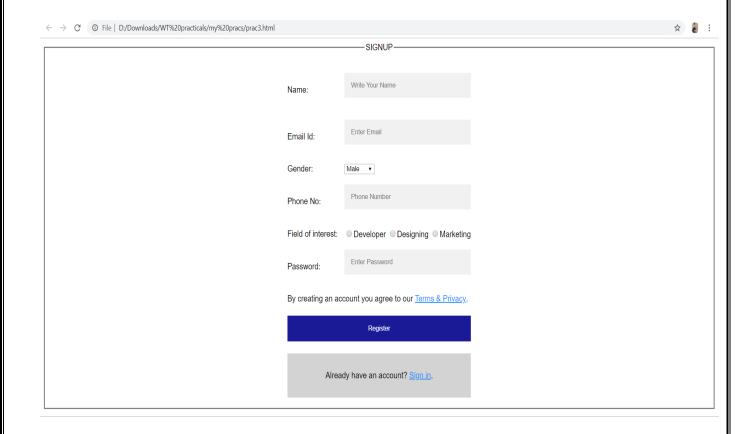

2. Write the following styles in separate CSS file and also show how to link this CSS file in HTML file and show the use of styles.

a) The headings should have normal font style and font size should be 120%

b) Define a class arial for paragraph which defines font family arial and font style bold

c) Apply a background color yellow and apply a background image "CE.jpg" (Use Frames)

PROGRAM :

```
body {
        font-family: "Times New Roman"; border: 1px solid black;
        color: black;
}
#head {
        font-weight: 120%;
}
.arial {
        font-family: arial; font-style: bold;
}
```
